## Miscellaneous and general terms and conditions

### Duration of installation:

One must anticipate at least one day for installing a WinCan8 in a vehicle. An appointment is necessary. Contact us at 026 672 36 00.

Please send requests for offers to:

CD Lab AG  
Irisweg 12  
3280 Murten/FR  
Tel: 026 672 37 37  
Fax: 026 672 37 38  
E-mail: sales@wincan.com

### Warranties / repairs:

We recommend that the assembly of all hardware components as well as the installation and configuration of Windows be performed by a specialised supplier.

CD LAB AG assumes no liability for defects which occur on the basis of faulty hardware and/or configuration problems PRIOR TO the installation of WinCan.

For defects and problems which appear to have been caused by the WinCan installation, its reseller must be informed immediately in order to be able to perform a system analysis. Contact: <http://www.wincan.com>

### Data security:

CD LAB AG is entitled, before and after every WinCan installation, to save a system IS condition of the customer's system (= 2 system-images). These data are stored at CD LAB AG for a period of several months. In so far as possible, the customer also receives these data to take along on an external data medium. The customer can first also independently safeguard the data, if this is desired and the possibility exists.

The customer is itself responsible for acquiring a corresponding imaging software. Recommended: Acronis Home (supplier: [www.brack.ch](http://www.brack.ch), [www.arp.ch](http://www.arp.ch), and others)

CD LAB AG undertakes to treat these data in strict confidence.
